Special Terms – Personal Logbook

This is an English translation. In the event of any difference, the Swedish version applies.

§ 1 General

1.1 These special terms supplement the general terms between the Customer and myWebLog with regard to the service the Customer has chosen (hereinafter the “Service”). myWebLog is operated by N56 AvCon AB, company registration number 559105-2104 (in these terms called “myWebLog”). In the event of a conflict between the general and the special terms, the special terms apply.

1.2 myWebLog is the controller for the personal data processed in the Service. Appendix A to the general terms (the Data Processing Agreement) does not apply to the Service, see clause 1.3 of Appendix A. The processing is described in myWebLog’s privacy policy, published at www.myweblog.se.

§ 2 The Service

2.1 The “Service” in these special terms means the personal logbook intended for individuals, and related sub-services provided under or in direct connection with the domain myweblog.se.

2.2 The Service is intended for the Customer’s own private use. Data about other persons, for example the names of commanders, first officers, instructors and students, or the signature of the person who certifies a flight, may be registered to the extent needed to keep the logbook.

2.3 The Customer may link the Service to their member account in an organization that uses myWebLog’s booking system. Flights from the organization’s logbook can then be transferred to the Service.

§ 3 Term of Agreement

3.1 The Customer is entitled to a free trial account for 30 days.

3.2 The term for the Service is one year. A payment made before the Renewal Date extends the Service by one year counted from the Renewal Date; a payment made after it, by one year counted from the payment date.

3.3 The Agreement’s Renewal Date is stated on the receipt and in the Service. The Customer is entitled to request in writing a change of the Renewal Date, but not to a day that results in an agreement period shorter than one year.

3.4 The Service is not renewed automatically. If the Customer does not renew the Service before the Renewal Date, access to the Service is locked until the fee has been paid. A reminder is sent by e-mail 30 days before the Renewal Date and shown in the Service.

3.5 While the Service is locked, the Customer may request in writing an extract of their data under clause 7.10 of the general terms.

§ 4 Fees

4.1 The fee for the Service according to the current price list shall be paid in advance. Payment is made by card or Swish.

§ 5 Import

5.1 The Customer can import data from other logbooks themselves using the Service’s import functions. The Customer is responsible for checking the imported data.

§ 6 Data Storage

6.1 Expired accounts and related information are deleted when the account has been expired and unused for five (5) years.

6.2 Information, including IP address, about successful and failed logins is stored for no more than 13 months in order to identify attempts at unauthorized access.

6.3 Backups are taken and stored as set out in clause 6 of Appendix A to the general terms.
